

BENEFITS AND FEATURES OF OUR MODEL #2250 FOLDING CHAIRS:

- **Lightweight** – only 3.2 kilos, approximately 7 pounds.
- **Durable** – “locked curve” feature on seat bottom insures safety.
- **Pre-Treated** – coat sprayed inside/outside, prior to powder coating for rust prevention.
- **Drop Test** – recent current laboratory tests found that Canada Chair Company’s chairs sustained the least impact or damage compared to our leading competitors, in a 300 pounds 6 inches drop test.
- **Our Special Steel Tubing** – Canada Chair Company’s chairs have a hardness of 80-86 degrees, (the average chair is 56-60 degrees). This means our chairs are steadier, more durable and longer lasting.
- **5 Year Warranty**
- **Quality Complaint-free History!**
